

SAFE DEPOSIT BOX
INSURANCE COVERAGE, LLC

Make the safest place even safer.
Store it. Insure it.

To be honest, most people only think about insurance after a devastating loss. It is at that time that you want your insurance company to be accessible and responsive to your needs. Unfortunately, it is also when you learn if you were protected to the extent you thought. If you haven't done your homework or have relied on uninformed advisors, a very bad situation can turn worse exposing both you and your family's financial wellbeing.

Unfortunately, in 2017 many people found themselves in just that position. The unending string of floods, fires, mudslides, and hurricanes destroyed peoples' property at a rate never before seen in the US. We were there to support our box holders in Texas, Louisiana, Florida, and California, but many other box holders and homeowners suffered life altering losses which were not covered by insurance.

Many insurance companies and advisors try to be all things to everyone and in the process deliver products and services that are not tailored to your needs. Here at SDBIC our mission is clear and focused. We want to educate folks on how to best secure and insure their valuable private property with the most comprehensive protection at a fair cost. In addition, we want to provide world-class customer service by providing a friendly knowledgeable voice when you call us, but also allowing you to manage your insurance online if you choose.

SAFE DEPOSIT BOX
INSURANCE COVERAGE, LLC

Make the safest place even safer.
Store it. Insure it.

Our product is unique because we insure the contents of your box and don't ask what individual items are being stored. If there is a loss everything in the box is covered.

The cost for our insurance is also substantially below what homeowner's coverage charges for inferior coverage that has a deductible, and many times excludes certain property and losses from floods, hurricanes, and earthquakes.

How are we able to do this? Unlike other insurers we developed rates looking exclusively at box related losses, while other carriers look at all losses on the types of property placed in boxes, then apply an arbitrary discount. As a result, many people end up paying way too much for coverage.

There is no "gotcha" with our insurance. Just a better product at a fair price from friendly people looking out for your best interests. While easy to say, the proof is in our sales numbers and the customer testimonials we have received since we embarked on our mission.

If you are already a customer, Thank you for your support. If you are not a customer and are considering insuring your valuables through us- please know we will provide you with world class service; If after 30 days you are unhappy with your decision, we will rescind coverage and return your full premium.

We are changing the way people insure their valuables. Secure storage with our insurance is safer and far less expensive. It is why we were awarded a patent. If you have questions, just call us. We will be happy to answer all your questions with no high-pressure selling, which is another characteristic that differentiates us.
